

## ZHB-100 Automatic Cartoning Machine(For packing bottle)

### Applicants:

ZHB-100 multi-functional automatic cartoning machine is widely applied in Bottle,tube,vial and other similar objects cartoning packing.The machine can automatically finish filling packaged objects , folding instruction manual(leaflet) ,forming(opening) Box ,inserting packaged objects ,printing.batch No ,sealing ,output functions.

### Feature:

- 1.Machine using mechanical pusher, each agencies work coordination , stable and reliable.
- 2.Adopts frequency speed adjust, PLC automatic control, touch screen operation, operation easy and running stable.
- 3.Lack of instructions, lack of blister sheets ,machine automatically detect and reject .
4. Automatic servo feeding device
5. Steel character embossing.

### Optional

The machine can be optional ink jet printer, glue machine, bar code reader, etc..

### Technical Data:

<b>Cartooning speed</b>	<b>100 Cartons/min</b>
Size of bottle	Min: diameter 25 height: 50 (mm)
	Max: diameter 90 height: 150 (mm)
Quality of carton	250~350g/m2
Motor power	1.5 kw
Power supply	Three Phases Four Wires 380V 50Hz (220V 60 Hz)
Air pressure and flow	0.5 Mpa >0.6m3/min
Air consumption	≥ 0.9 m3/h
Noise standard	<85 dB
Size (L*W*H)	2800×1350×2000 (mm)
Weight	1500 Kg
